

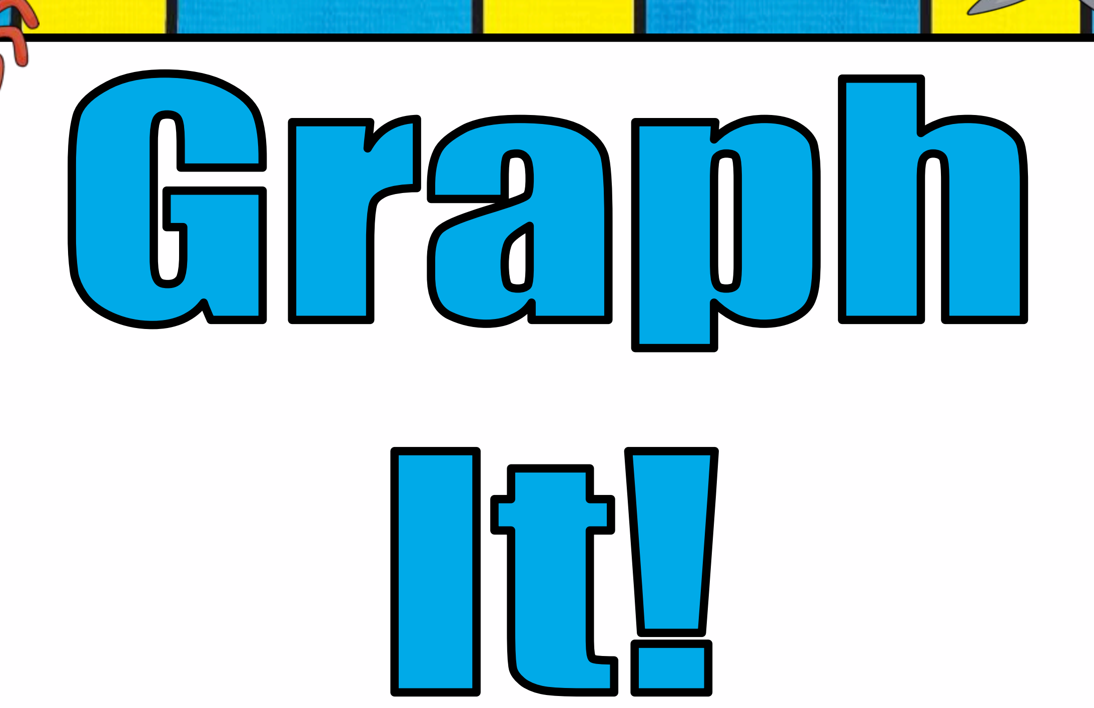

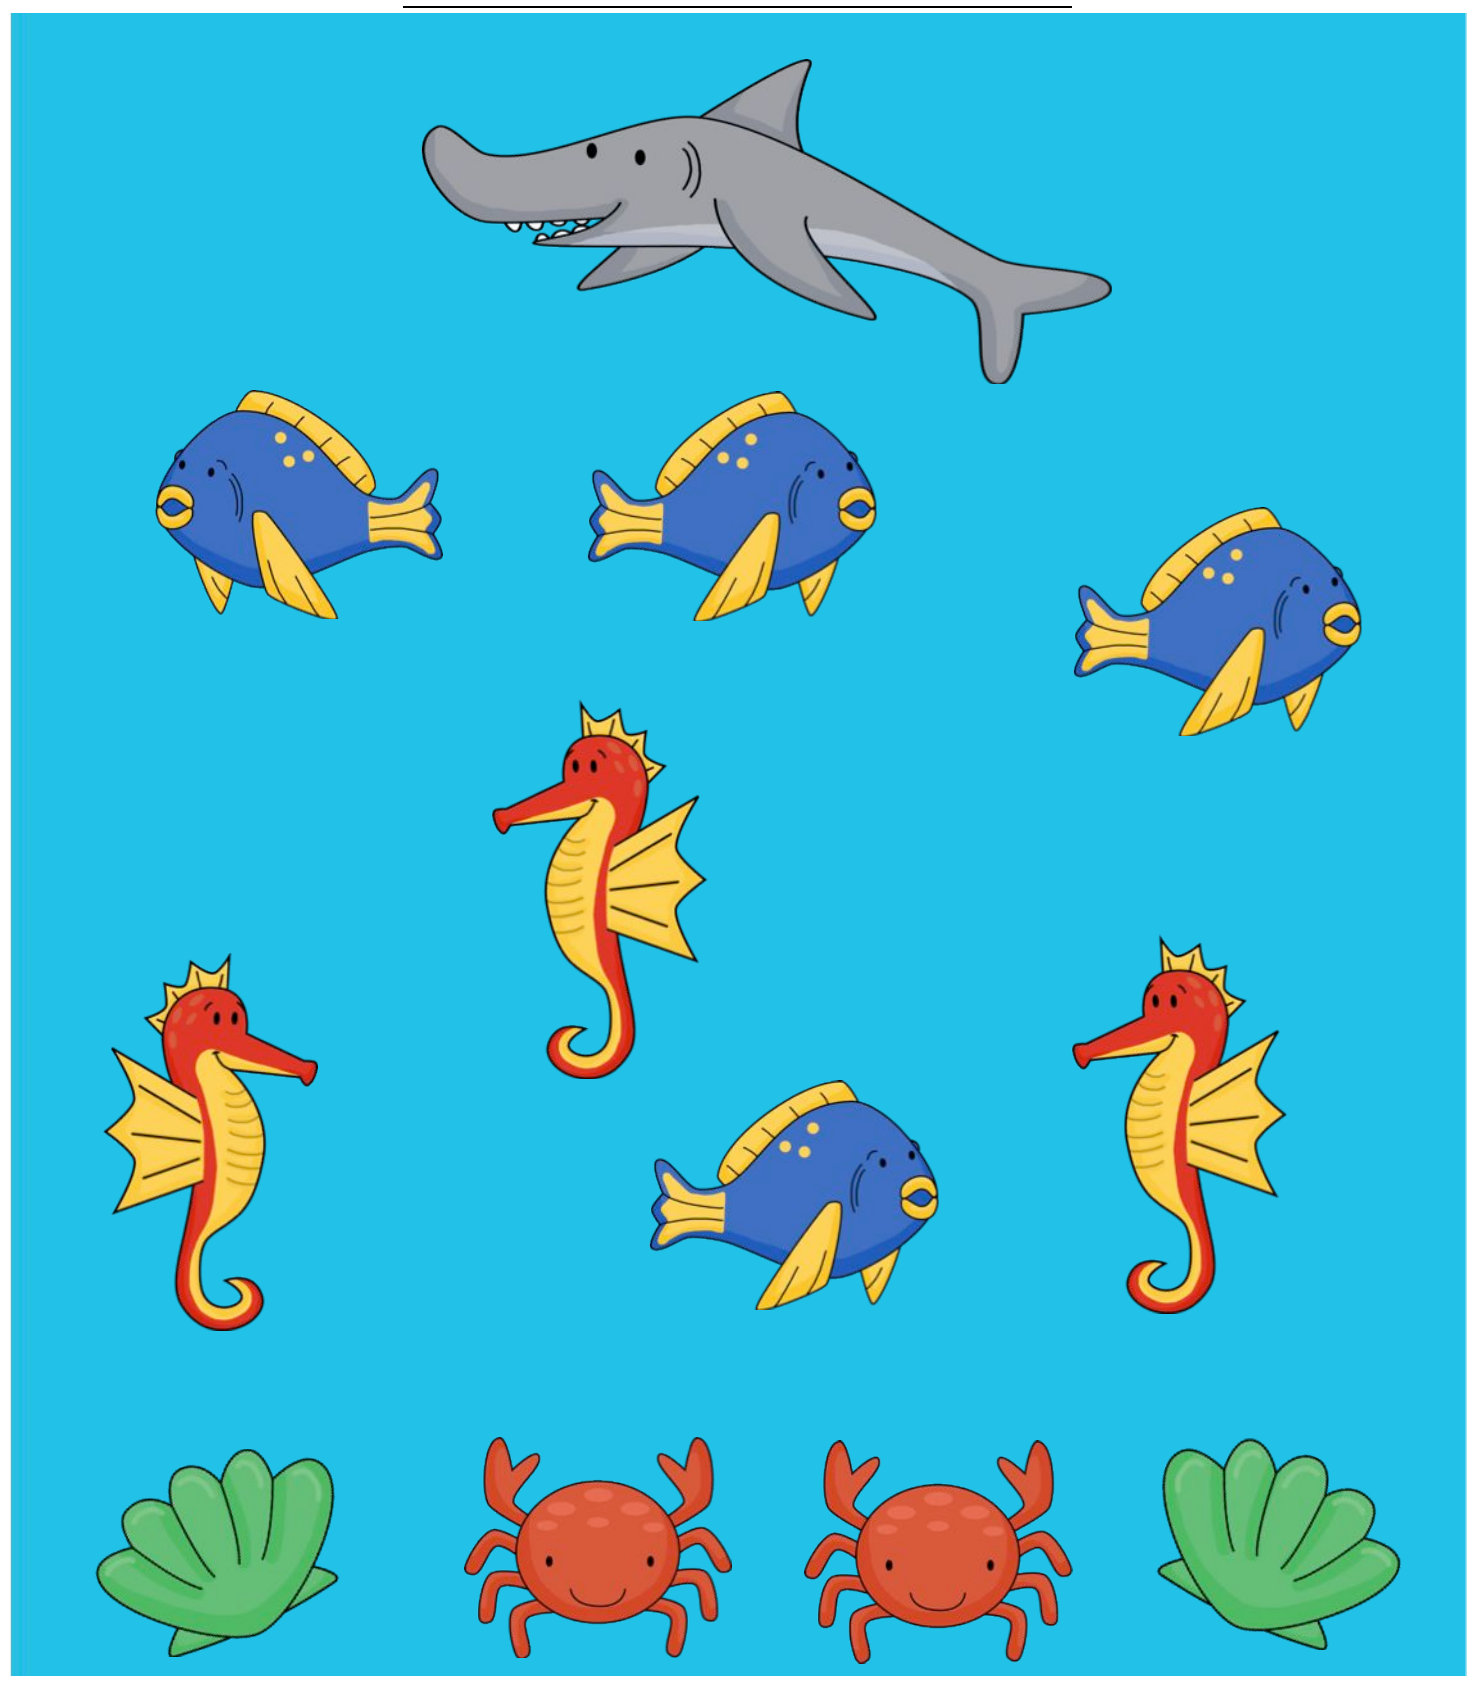

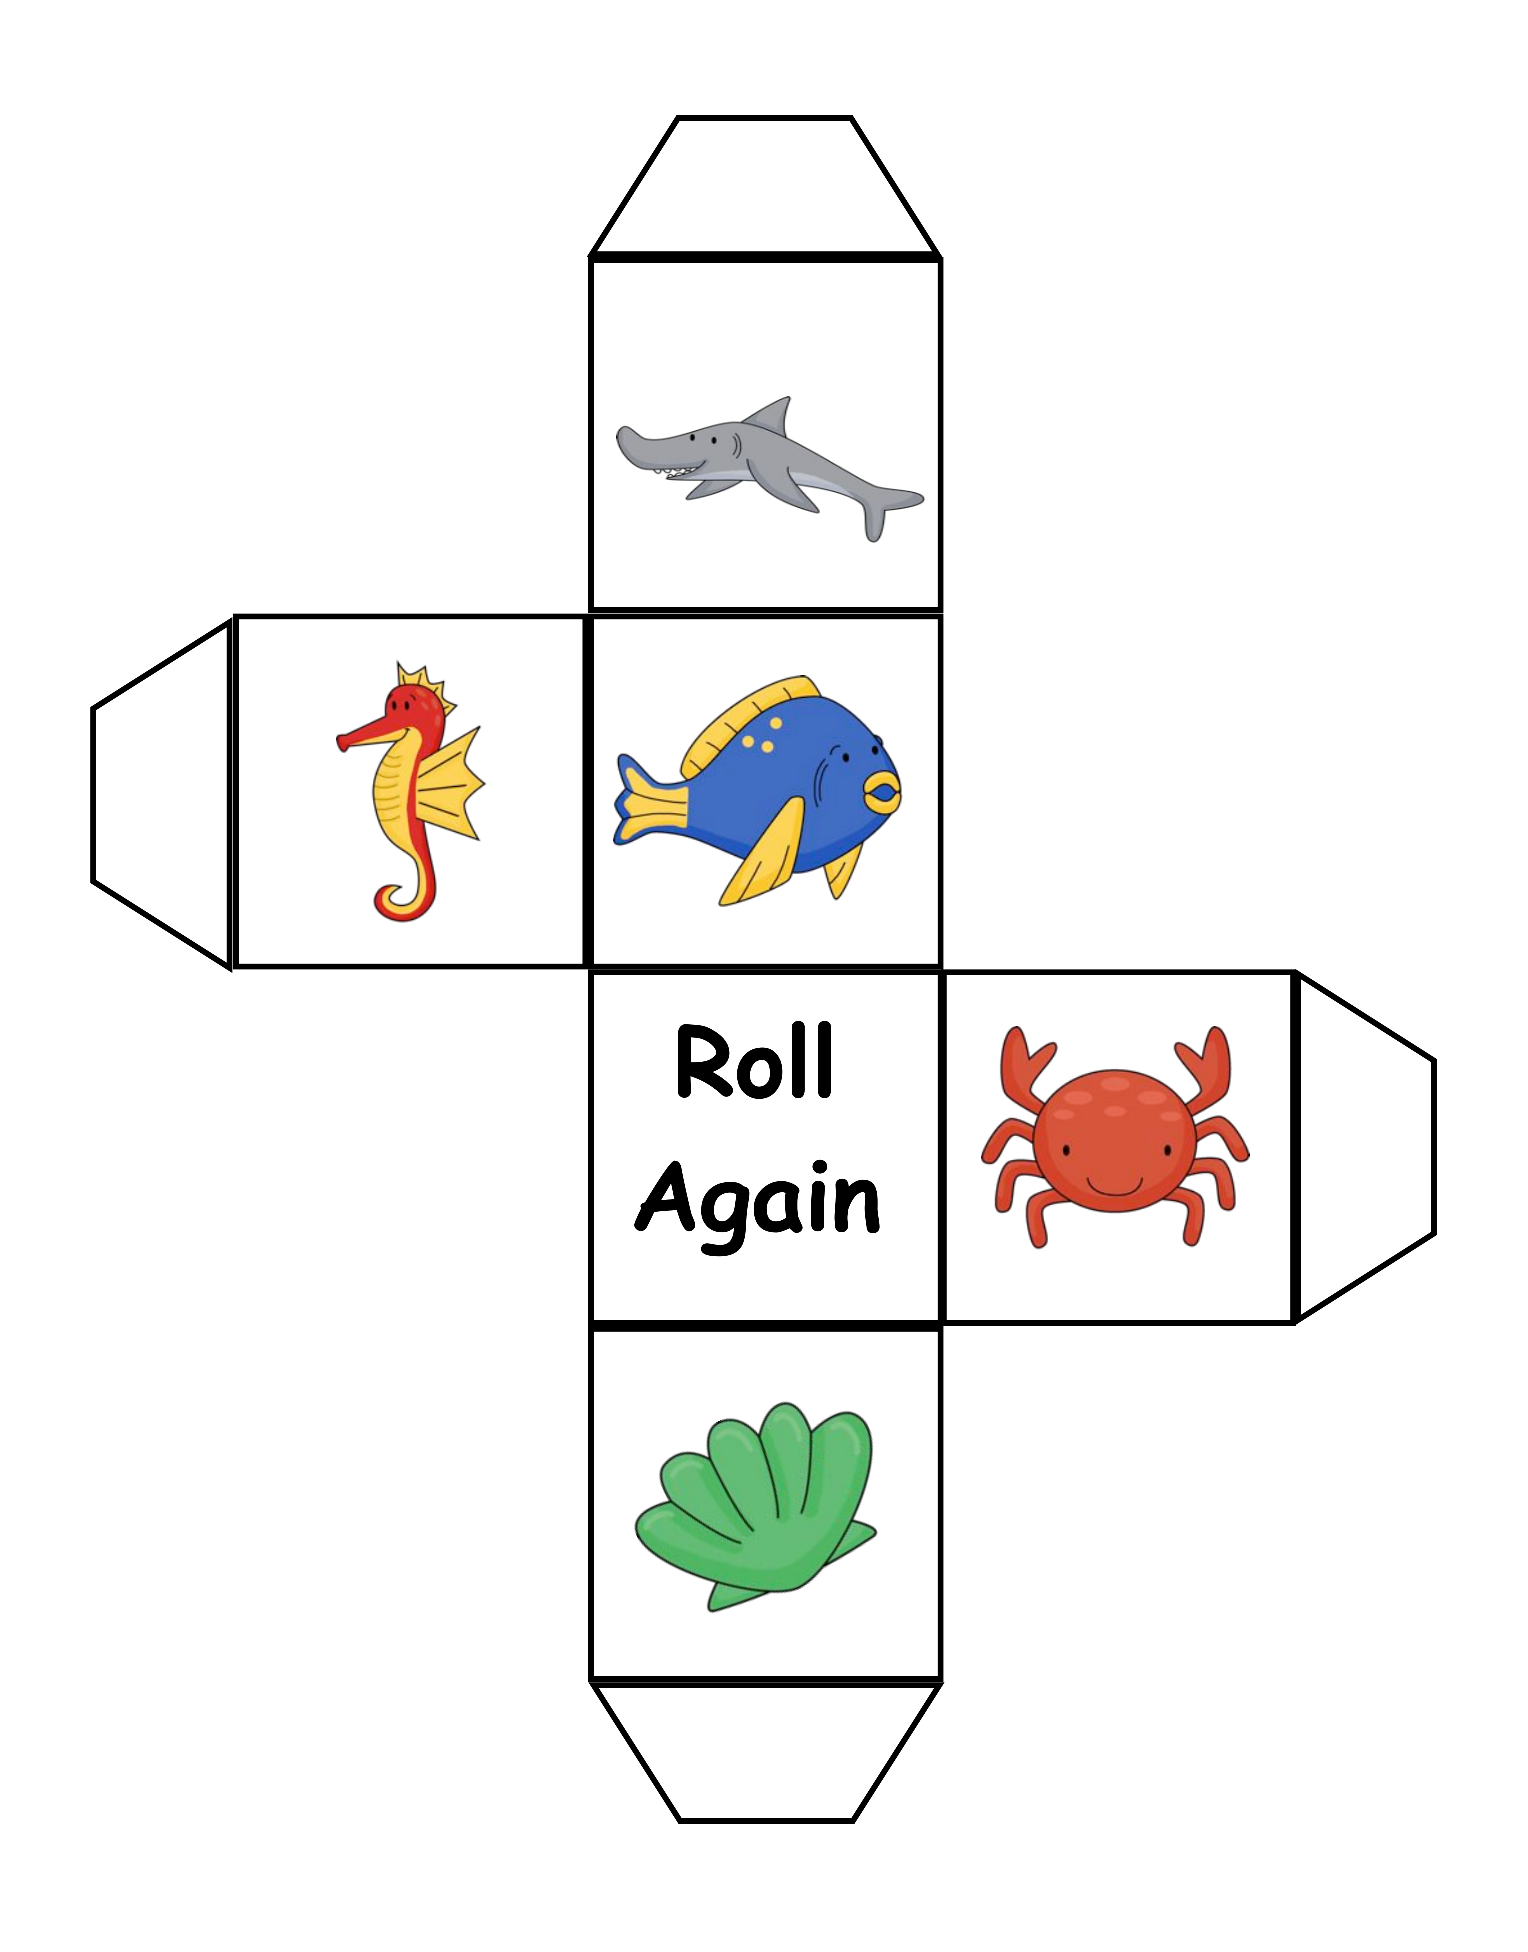

# Graph It!

**Version 1:** Choose one of seven Picture Page/Bar Graph sets. Count the number of items in each category and fill-in the bar graph.

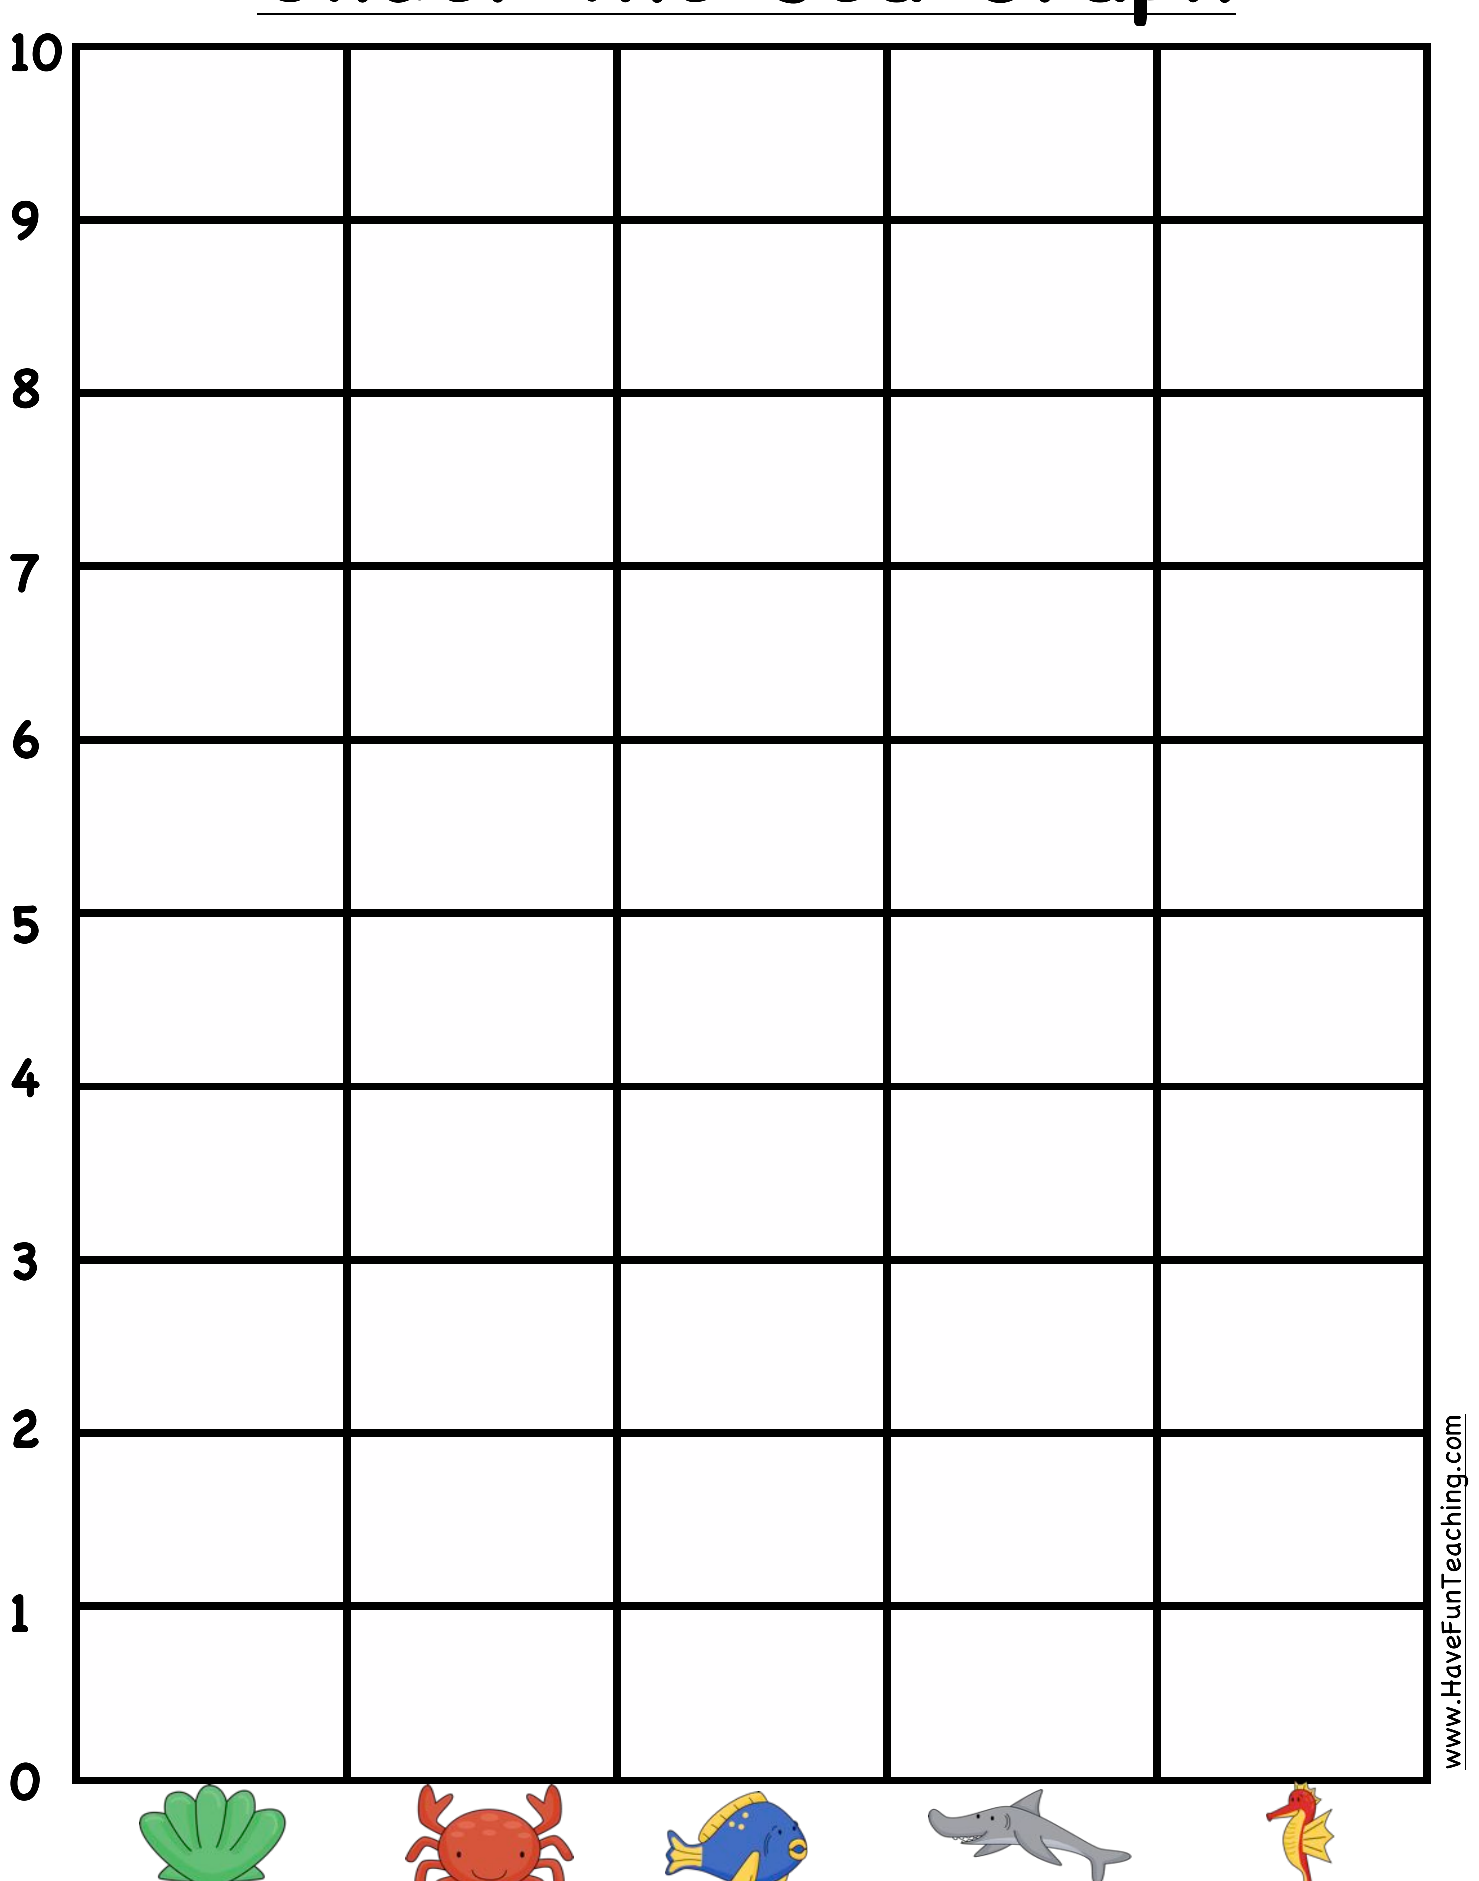

**Version 2:** Use the picture dice and bar graphs for this version. This activity can be done independently or in small groups. Roll the die to land on a picture. Fill-in the bar graph accordingly. Game stops when time is up or when one of the pictures is landed on ten times and fills to the top of the bar graph.
